

## **Alliant National Announces the Promotion of KC West to Senior Vice President and Southwest Region Manager**

Longmont, Colo - (July XX, 2020) – Alliant National Title Insurance Company, a unique title insurance underwriter that partners with independent agents to improve their competitive position, announces the promotion of KC West to Senior Vice President and Southwest Region Manager effective immediately.

West assumes regional duties following the promotion earlier this year of Rodney Anderson to National Agency Manager. West will expand his current responsibilities in Texas to include developing, marketing and managing Alliant National's Southwest Region, which along with Texas, includes Oklahoma, Arkansas, Louisiana and New Mexico.

West is a 22-year title industry veteran having worked his way up through the ranks.

“KC has done just about every job in the title industry from abstractor, examiner, closer, area manager, vendor manager, Agency Manager, State Manager, and KC has earned the Regional Agency Manager's role based on his stellar performance, industry knowledge, and incredible relationships within the industry,” says Rodney Anderson. “I am proud of the accomplishments of KC West, and it is with great pleasure that Alliant National makes this announcement.”

“KC joined us just two years ago, and I'm deeply impressed by how quickly he has established himself as an integral member of our organization,” says Alliant National CEO David Sinclair. “KC has had tremendous success building relationships in Texas, and he is uniquely positioned to lead our team to future success across the region.”

Alliant National distinguishes itself from competitors by combining strong underwriting capability with independent agents' in-depth knowledge of local markets. The result is a nationwide network with deep roots in local

communities and a wealth of expertise that is flexible, nuanced and continuously growing.
