FOR IMMEDIATE RELEASE

Patten Title Company's, Eric Fontanot, Named Houston Business Journal's Most Admired CEO

Eric Fontanot, leads Patten Title's six offices across Texas and places an emphasis on workplace culture, community and cutting edge solutions; he is the only recipient selected from the title industry.

HOUSTON (Aug 24, 2020) – [Patten Title Company](#) is excited to announce that Eric Fontanot, President, has been named one of Houston Business Journal's Most Admired CEO's. The candidates were assessed on a variety of qualities such as contribution to company success, civic involvement, career achievement and more. Fontanot has illustrated excellent leadership skills throughout his career with his guidance shepherding Patten Title through the 2008 mortgage crisis, its expansion into new markets, the reestablishment of the Houston market area as one of the highest transactional volume offices in the state of Texas, and, most recently, the transition from a law firm into a full title agency.

"While I have had the opportunity to work with great people over the years, Eric's commitment to growing a business through the leadership of his team is unlike any that I have seen," said Tiffany Stillwell, VP of Marketing at Patten Title. "His ability to foster talent through a company culture that not only strives for excellence but is one where team members are excited to work is an encouraging approach to leadership."

Awarded for his leadership in the title industry, he'll be recognized alongside 31 others in various, non-competing, for profit fields such as energy, health and engineering. Fontanot will be honored during the virtual event hosted by the HBJ on August 20th.

Managing the operations of a title office ignited a passion in Fontanot for orchestrating small business operations and handling the needs of the individuals who make those companies run smoothly. This enthusiasm led him to be named President of Patten

Title in 2019 where his guidance not only directly impacts the success of the business, but also is reflected in the attention he pours into his employees and community.
