**TEXAS NATIONAL TITLE IS HONORED FOR THE FOURTH YEAR IN A ROW  
AS A TOP WORKPLACE IN 2020**

**AUSTIN** – On Sunday, November 8, 2020, The Austin American Statesman honored Texas National Title as part of their Top Workplaces of 2020 in the Greater Austin Area. Since the company began in 2017, a core belief at TNT is that the most successful companies are the ones that employees believe in and where they feel like highly valued members. These days, it is key to remember that job seekers are looking for much more than a paycheck when they choose where to work. Being recognized as a Top Workplace for the fourth year in a row feels like a major success, proving that TNT not only talks the talk, but also consistently walks the walk with their efforts to create a positive work atmosphere.

The Top Workplaces program recognizes good employers on 50 regional lists. The evaluations for the list are based purely on confidential employee opinions of their employer, which are gathered through the Energage employee survey. Since the inception of Top Workplaces eleven years ago, over 7,000 organizations participate in the program each year.

Texas National Title holds high regard in the idea that if you put employees first, give them the tools they need and stay out of their way, they will treat customers with that same level of care. TNT believes in its employees, empowers them to be successful, and gets involved in the communities that it serves. TNT supports employees with the training, the best tools available, and the technology support they need to succeed. And most importantly for company culture, remembers to have fun along the way.
